

Project Overview

- ❖ Client: JP Morgan
- ❖ Project: Changing Facilities
- ❖ Project Value: £1m

Modulek Services

- ❖ Project Management
- ❖ Groundworks and piling
- ❖ Internal fit-out and finish
- ❖ Service connections
- ❖ Off-site manufacturing

Objectives

JP Morgan had a need to provide showers and changing facilities due to an increase in staff cycling and running to work.

Solutions

Modulek installed a modern, spacious 2-storey shower block and changing rooms within seven weeks.

Modulek value-engineered the original traditional build design, down to within the client's budget.

Results

JP Modulek were provided with their new 2 storey building on time and in budget.

Modulek were able to bring the project back into the client's budget.

“The feedback Simon and I have also received from the users has been excellent. It was especially nice that we could use a local Dorset company to carry out the works and benefit the local economy.”

EMEA head of Design & Construction
