

Project Overview

- ❖ Client: Lytchett Minster School
- ❖ Project: Geography Block
- ❖ Challenge: Access
- ❖ Project size: 2 Storey Block

Modulek Services

- ❖ Demolition of old site
- ❖ Project Management
- ❖ Groundworks and Foundations
- ❖ Off-site Construction
- ❖ Service Connections.

Objectives

To create a new state-of-the-art Geography block.

To provide a building that is in keeping with the current school buildings.

Solutions

Modulek was able to overcome tricky access issues by craning the building into location.

Results

Modulek's unique hybrid construction method enabled this build project to remain within the client's budget and timeframe.

"We are really excited about the increased space. It is going to allow us to increase our provision as a school."

Kieren Hasler | Business Manager at Lytchett Minister School
