- ❖ Project: Science block
- ❖ Challenge: Timeframe
- ❖ Project size: 2 Storey block

## Modulek Services

- ❖ Design
- ❖ Project Management
- ❖ Groundworks and Foundations
- ❖ Internal fit out and finishing

### Objectives

To create a new Science block to act as a showcase to new prospective students interested in STEM subjects.

To provide minimal disruption to learning during installation.

### Solutions

Modulek was able to complete the building in just 20 weeks.

Modulek installed the new building in just 4 days.

### Results

Modulek provided a bespoke teaching block that had the look and feel of a traditional building.

The client has a showcase 6<sup>th</sup> Form block for prospective students.

Solihull Sixth Form College needed to build a new two-storey Science Block. A large and busy site meant that disruption had to be kept to a minimum.

Traditional Build was not an option due to the length of time required on-site and the impact of the disruption it would cause to the college.
